About the Course

The Medical Certification of Cause of Death (MCCD) E-learning Course is designed to empower healthcare providers with essential skills to accurately certify causes of death in accordance with WHO ICD-10 standards. This course is part of the initiative by the Tata Memorial Centres, Unit for Strengthening Cause of Death Data, to improve the quality of mortality data for public health planning and policymaking.

Course Objectives

- Understand the importance of good quality mortality data.
- Learn how to correctly complete the Medical Certification of Cause of Death Form.
- Learn to correctly certify death based on ICD 10 codes.
- Identify and correct common errors in death certification.
- Support health systems in producing reliable and actionable mortality statistics.

Target Audience

- Medical Officers
- AYUSH Doctors
- Hospital Administrators
- Medical Record Officers
- Public Health Professionals
- Medical Interns & Residents
- Paramedical Staff
